

# RIMES CLIENT CONFERENCE 2016

**Save the Date**  
September 15, 2016  
Gansevoort Park Avenue Hotel  
New York City

## BE THE FIRST TO RECEIVE THE RIMES-FORRESTER DATA MATURITY WHITE PAPER!

By now, you've probably heard about our Forrester-sponsored white paper, **"Buy-Side Firms: Plot Your Path to Data Management Maturity."** On September 15, we'll launch the white paper at this year's **RIMES Annual Client and Insights Conference** in New York City. Our third session will feature a presentation by Gene Leganza, Vice President and Research Director at Forrester, and our own Senior Vice President and Global Head of Data Solutions, Steve Cheng, who will provide their insights on the research.

This is a great opportunity to learn about the white paper straight from the researchers' mouths. Forrester Consulting has a wealth of knowledge regarding data maturity's impact on many types of businesses, and you'd be remiss not to attend the session.

What if you can't make it to New York City on September 15? Not to worry. This fall, we'll be hosting several Forrester forums across Europe and North America. Listed below are the dates and locations:

- ◆ SCREEN Event, Amsterdam 11 October
- ◆ L'Agefi AMtech day, Paris 13 October
- ◆ RIMES Forum, Boston 3 November
- ◆ RIMES Forum, Toronto 8 November
- ◆ RIMES Forum, Chicago 10 November

If you want to review the full agenda and RSVP to our Annual Client and Insights Conference at the Gansevoort Park Avenue Hotel in Manhattan's NoMad District in NYC, or sign up for any of these forums, you can register\* [here](#) for your free spot, or email [events@rimes.com](mailto:events@rimes.com). Hope to see you at one of these events!

Sincerely,

RIMES Technologies

\* Please note that places are limited and registration is mandatory for this conference. Due to the nature of our events, this conference is reserved for buy-side end-users.
